CHICAGO

Philadelphia

The No. 80 Heinisch Long-Time Burner was developed to meet the demand for a long-time burner which would operate satisfactorily with the oils obtained from the western fields. Its success with these oils led to its trial with oils obtained from other fields, where it has met with equal success.

It gives a bright and uniform light at all times.

Heinisch Long-Time Burner No. 80

- No. 80 - - - 1 $\frac{3}{4}$ inch shaft.
- No. 81 - - - 2 inch shaft.
- No. 82 - - - 2 $\frac{1}{2}$ inch shaft.
- No. 83 - - - 3 inch shaft.
- No. 84 - - - 4 $\frac{1}{2}$ inch shaft.

To take No. 55-D Chimney.
